I can't find Jane... Where did Jane go?

Daniel, I know you're wondering about Jane. She always visits during lunchtime - that's your favorite time together, remember? She should be here soon.

Confused

Is it... is it time to go to bed? I see it's dark outside... or maybe...

Daniel, it is getting a bit dark outside, but it's not bed time just yet. We usually head out for our evening walk around this time. How about we enjoy the fresh air from the walk first?

Messy

What time is my... did John bring the blue pills? No, wait, that was yesterday... or was it the green ones from Mary?

I understand this is important to you. Could you tell me a bit more about which medicine you're thinking of? I'm here to help you remember.
